

LABOR RELATIONS

September 14, 2011

Mr. Cliff Guffey
President
American Postal Workers
Union (APWU), AFL-CIO
1300 L Street, NW
Washington, DC 20005-4128

Certified Mail Tracking Number:
7010 2780 0003 6468 7656

Fax: (202) 842-4297

Dear Cliff,

This letter is an informational notice of the Postal Service's intent to conduct Area Mail Processing (AMP) feasibility studies, at the sites listed on the enclosure to this notice, for possible consolidation of some operations as indicated in the listing. Also included, as general information, are sites identified for non-AMP studies that could also result in consolidation of some operations.

An AMP study involves the review of mail processing and transportation operations at a postal facility. The reason for the studies is to review mail volume and determine capacity needs in order to increase efficiency and improve productivity. In doing so, we will be able to continue to provide universal service at a reasonable cost for a long time to come.

The Postal Service is facing one of the most difficult challenges in its history. There has been a continual decline in single-piece, first-class mail volumes over the past decade. Volume was down by more than 9 billion pieces last year. The most recent projections predict volume will continue to decline for the next decade. The Postal Service has to realign its processing and delivery network to match its resources with mail volume. The reality is we have an excess of equipment, staff and facilities to process a declining volume of mail. Consolidating some postal operations only makes logical business sense given the economic realities. It would be fiscally irresponsible not to do so.

This letter is solely intended to provide you with information that we plan to conduct the studies at the sites listed on the attachment. If the business case supports consolidation, public meetings will be held to allow members of the community to ask questions and provide feedback. Community input will be considered before decisions are made as to whether or not the proposed consolidations should be implemented. This letter is not intended as notice of future changes in mail processing and is not a notice of impact on employees. Appropriate notice will be given, if any is required, as the decisions on each individual study are made.

If you have any questions concerning these AMP feasibility studies, please contact Rickey R. Dean of my staff at (202) 268-7412.

Sincerely,

Patrick M. Devine
A/Manager
Contract Administration (APWU)

Enclosure

SOUTHWEST – AREA MAIL PROCESSING STUDIES

1. Abilene TX CSMPC into Austin TX P&DC and/or Midland TX P&DF
